Proxima offers a variety of common lab reagents at very affordable prices – most of our reagent products are just \$25! Instead of having excess reagents sitting around past their expiry date, Proxima offers ready-to-go reagents in reasonable package sizes. Next day delivery is possible for many clients in Western Canada. Save time and money by ordering your common reagents from Proxima.

Proxima can also produce any reagent you use commonly in the lab including custom or customer provided formulations with assured confidentiality and quality at affordable rates. We are adding to our reagent list all the time so subscribe to our newsletter for updates about new products.

Contact us to set up an account then to order simply email [contact@proxima-rd.ca](mailto:contact@proxima-rd.ca) to with the required catalogue numbers and quantities. Shipping rates may vary. Free shipping to customers within the Saskatoon, Saskatchewan metropolitan area.
